

Procedure:

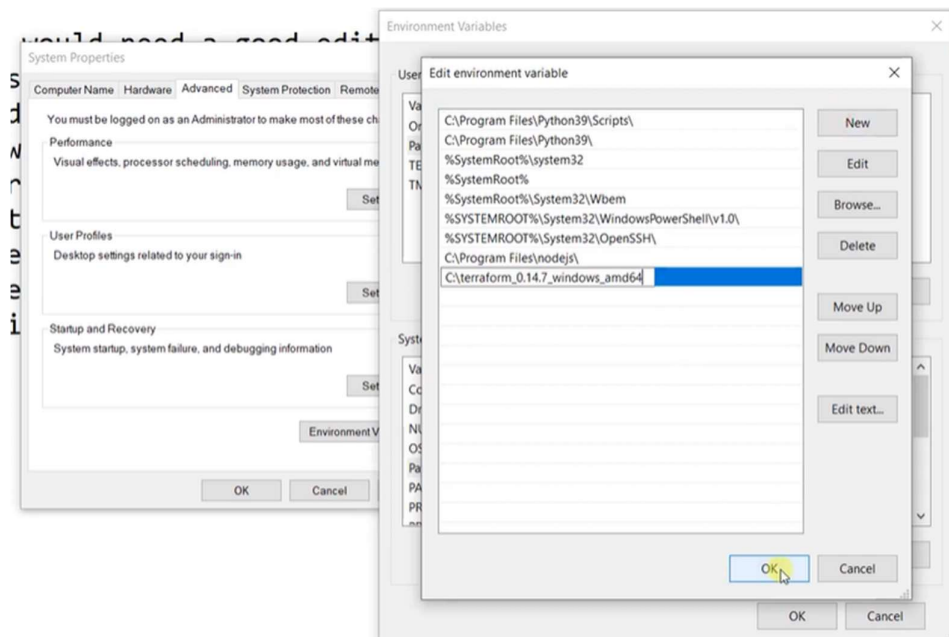

1. Download and Install Terraform and Setup Path

2. After Installation Extract the folder C:\terraform_1.2.8_windows_amd64

3. Edit Environment Variable Path

4. Check the version installed in the system

>> terraform --version

```
Microsoft Windows [Version 10.0.19044.2006]
(c) Microsoft Corporation. All rights reserved.

C:\Users\Snehal Mhatre>terraform --version
Terraform v1.2.8
on windows_amd64

Your version of Terraform is out of date! The latest version
is 1.2.9. You can update by downloading from https://www.terraform.io/downloads.html
